RE: California Hospital Outcomes Report

Dear Dr. Werdegar:

We are again pleased with the OSHPD study design and outcomes reported at Saint John's Hopital and Health Center. According to your study, patients for whom we cared with acute myocardial infarctions, intravertebral disc excisions, and obstetrical deliveries fared well at our institution. Guided by a tradition of excellence and the tenets of continous quality improvement, we are grateful for measures that help us better serve our Community.

Thank you for allowing us to participate in and learn from this study.

Sincerely

Sister Marie Madeleine Shonka
President
