The *ICD-9-CM Coding Edit Manual, Eighth Edition*, has been revised and can be directly viewed at or downloaded from the following web address:
<http://www.oshpd.ca.gov/MIRCaI/programs/IP/editmanual.htm>.

In accordance with the ICD-9-CM Coding Guidelines effective through the Fourth Quarter 2006 and October 2007, and the code changes as noted in the Federal Register dated August 18, 2006 and August 22, 2007, the following changes were made in red highlights for 2006 and blue highlights for 2007 throughout this manual:

- Add/delete ICD-9-CM codes effective 10/1/2006 and 10/1/2007
- Two new non-critical coding edits: VW011 and VW051.
See page vi on "Non-Critical Coding Edits" for a complete list
- Revise the following coding edits:
V0001, VW012, VW041, V0047, V0090, V0101, V0112, V0121, V0124, VW158, VW241, VW242, VW300, V0315, and V0571
- Expand coding edit V0013 to include the following italicized codes:
284.2, 289.83, 323.01, 323.02, 323.41, 323.42, 323.61, 323.62, 323.63, 323.71, 323.72, and 341.21
- Expand coding edit VW241 to include the following codes: 058.10-058.12 for specified and unspecified Roseola conditions
- Expand coding edit VW242 to include the following codes: 233.30-233.39 for specified and unspecified carcinoma-in-situ of female genital organ

In order to save paper, all references with strike-outs were removed. All references to *Coding Clinic for ICD-9-CM* and other associated coding resources were also removed. As a result, the pagination was revised.

The foreward on page v includes an explanation of the non-critical coding edits.

If you have any questions or comments concerning the manual, please contact Ginger Cox at 916-326-3979 or gcox@oshpd.ca.gov.
