Section 97217

*The patient's gender shall be reported as male, female, other, or unknown. "Other" includes sex changes, undetermined sex, and live births with congenital abnormalities that obscure sex identification. "Unknown" indicates that the patient's sex was not available from the medical record.*

DISCUSSION

Specifications for reporting this data element with the Record Entry Form for online web entry of individual records or online data file transmission for discharges occurring on or after January 1, 2006:

<b>SEX</b>		
1 Male	3 Other	<input type="checkbox"/>
2 Female	4 Unknown	

DISCUSSION

In general, whenever a diagnosis or procedure is sex specific, the reported sex needs to be consistent with the reported ICD-9-CM code.

Use "Other" when a patient is admitted for any procedure related to a sex change operation.
