Subject: Chargemaster 2007 for RCBM

Hello Mr. Nelson,

I was forwarded your email to the Riverside Center for Behavioral Medicine, (OSHPD #106331226), regarding two items of concern with our Chargemaster Report for 2007. I just had a conversation with Tim Pasco about the issues that were addressed by the email. He advised me to email you with the reasons for these variances. The first problem was that we only submitted eight common outpatient procedures vs. the twenty-five that were requested. The reason for this is that our facility only offers eight outpatient procedures. The second issue was that we had not sufficiently shown the effects of any price changes to the estimated net income of the facility. The reason for this was that we had no price changes from the prior year. I apologize for any confusion this may caused. In the future, I will do my best to clearly state any unusual variances on the report itself. If you have any further questions please do not hesitate to call me at (423) 308-1845 ext. 242, or email me at ~~garronh@gracehc.com~~. Thank you and have nice day.

Sincerely,

Garron Haycock
