August 27, 2007

Dear Ms. Burritt,

Attached please find a CD with a copy of the charge master for VCMC/Santa Paula Hospital with pricing effective as of 6/1/07, as well as the top 25 procedures utilized since our submission last year. This information is being provided as required by AB 1627/1045. The estimated percent change in gross revenue due to price changes since the last reporting period is 25% per our Fiscal Manager.

Please note that this was previously submitted electronically on 6/30/07 as originally required, and then again on 8/24/07. After verifying with Tim Pasco in your office that he was still unable to receive the documents due to issues with your recently installed spam filter, he recommended that the information be submitted a third time on CD to avoid any further delays.

Please let me know if you have questions regarding the information provided.

David Herzog  
HCA Information Technology Services Manager
